My prescriptions

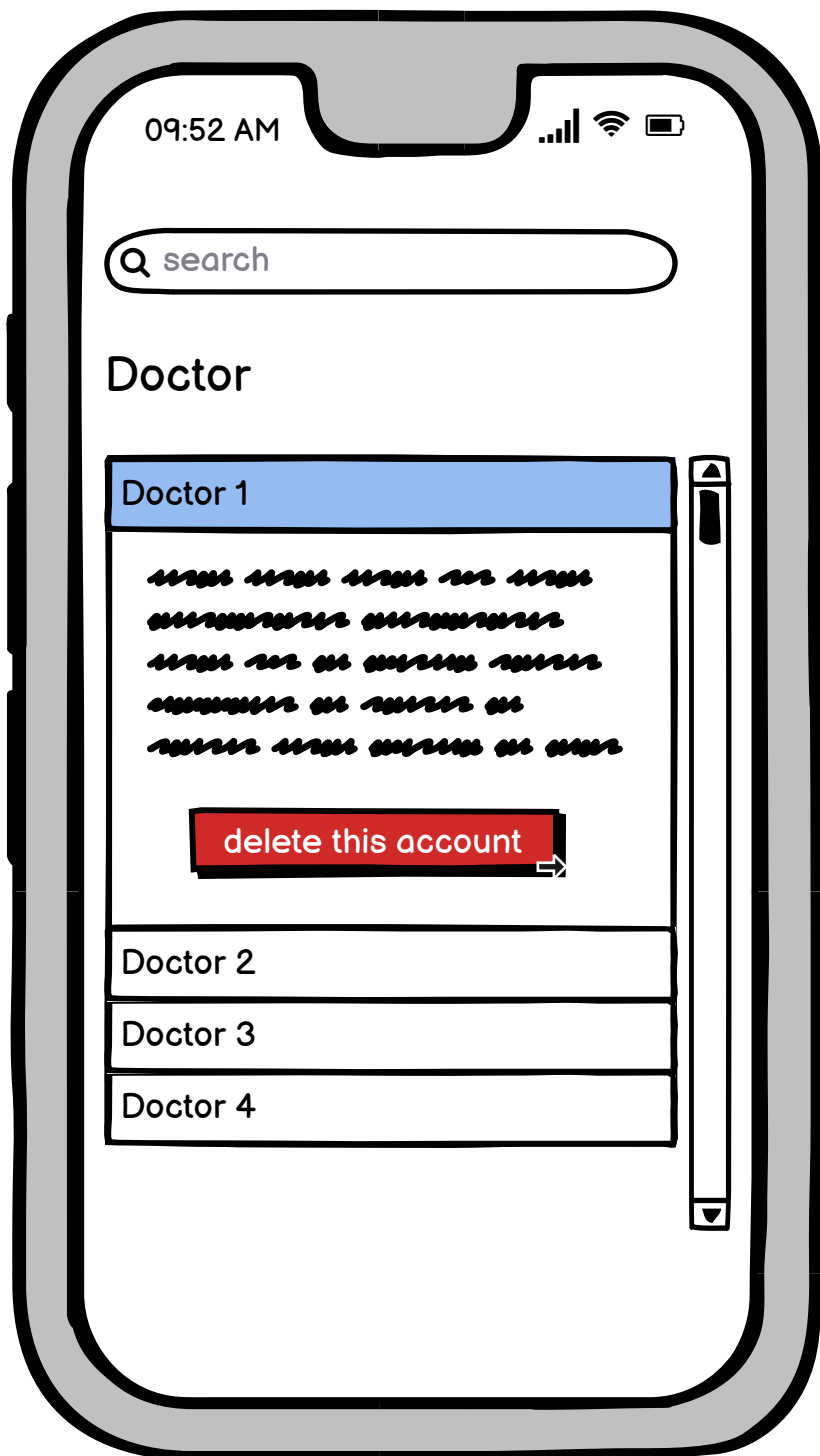

There are many ways to get your prescriptions filled. You can go to a pharmacy, or you can use a mail-order service. Some pharmacies offer delivery services, so you can have your prescriptions delivered to your home. You can also use a kiosk at the pharmacy to fill out your prescriptions. If you have a chronic condition, you may be able to get a 90-day supply of your medication. This can save you time and money. You can also ask your doctor if you can switch to a generic medication, which is usually cheaper than the brand-name version. If you are having trouble paying for your prescriptions, there are many programs available to help. You can ask your pharmacist or doctor about these programs. They can help you find the best way to get your prescriptions filled.
